# What our children, staff and families think ...

My son comes home after every outdoor learning session tired, muddy and hungry, but in a good way! His attitude towards going to school has really changed.

I never thought we would have somewhere like this at OUR school, I love it!

We have enjoyed coming into school to share our children's learning with them. Thank you.

Working with Paul and Jo from Chiltern Rangers has been great, they make learning fun, and I have learnt how to use tools safely.

When I take my class to learn in the outdoor area, I can see their faces light up ...they are so engaged and interested. It is always the highlight of the week!
